

New Office of EMS Visitor Parking Spots

We are glad to share with you that there are now two parking spaces available for those visiting the Office of EMS at the Virginia Department of Health (VDH) Madison building in downtown Richmond, located at 109 Governor St., Suite UB-55. These spots are marked by "EMS Parking Only" and their locations are marked by red stars on the map to the right.

The easiest way to get to these two parking spaces is to take Old 14th Street off of Broad Street. Old 14th brings you in between the Department of Transportation building and the Transportation Annex building. To get to spot 1, take Broad Street and turn onto Old 14th Street. Take a right onto Grace Street, which is one way, and turn left into the parking area in front of the VDH building and park in the appropriately marked spot. This spot is outside of the mezzanine VDH entrance. To get to spot 2, take Broad Street and turn onto Old 14th Street, continue straight and turn into the second parking lot on your right and park in the appropriately marked spot. This spot is outside of the lower basement VDH entrance.

When you come to visit us downtown, it's best to call the person you intend to visit ahead of time to arrange your parking pass. Please park in the available EMS space, call the OEMS staffer you intend to visit for entrance to the building, and OEMS will give you a parking pass to put in your front windshield for the duration of your visit. Please call OEMS if you have any questions, (804) 864-7600.
